

Unit 1: Polynomial and Rational Functions

Name: _____ Date: _____

Period: _____

Learning Targets — I Can...

1. I can construct a polynomial or piecewise function model from a contextual description using restrictions, transformations, or regression techniques. *(LO 1.14.A)*
2. I can apply a function model to answer questions about predicted values, rates of change, and average rates of change, including appropriate units. *(LO 1.14.C)*

What's in This Packet

#	Component	Description	Score
1	Warm-Up	Spiral review: average rate of change, evaluating polynomials, identifying model type	_____
2	Group Activity	Engineering Design Challenge: construct and apply models in three scenarios	_____
3	Exit Ticket	Evaluate a quadratic model, state a domain restriction, interpret rate of change	_____
4	Homework	Model construction, rational models, rates of change with units, piecewise pricing	_____
Total			_____
